

Pattern Report at PFL June 18th 2016

It is hard to believe that with all the bad weather and rain over the last week we had an excellent day to hold the third round of Pattern last Saturday. For this time of the year and the weather we had the best roll up of pilots for some time with 13 competitors. We completed 4 rounds with the longer the day went the better it became with excellent flying from all pilots which the results show. Ben has started his first comp in Advanced class with a win and a promotional point, keep up the good flying Ben we hope to see you in Expert in the very near future. Congratulations also to the three other pilots that also gained promotional points, very well done guys to Michael Rutledge, David Cook both in Sportsman and Scott Kay in F3A. From the start of the day I proposed to have 3 rounds as we did start a little later which often happens at this time of the year. I was asked after lunch if we were going to fly a fourth round seeing such good weather, everyone was in favour to do so with one exception. At one point during the day Kevin seemed to have shares in YS glow plugs as his engine was spitting these out just about one each flight which was not good. On Kevin's last flight it was clear that his YS engine had more serious problems when it locked up in flight, but a safe dead stick landing with no damage well done Kevin.

My thanks to everyone who made the trip to compete or just to have a look at the good flying during the day, it is very rare we could have such a great day during this time of the year. Good to see Kevin Swiggs and Huw Davies and other guests joining in for the day. I would welcome new flyers to the Pattern flying comps at PFL so if anyone is interested please contact myself on 0408969360 or and.mac@bigpond.com .

As we all know it would not be possible to run these events without the help of the pilots in the judges chairs and Darrel on the canteen, Tina Reece and Scott on the computer. I do apologize to everyone for the late finish waiting for the final scores but the computer system had a small function, but I was able to send them out that night thanks to Scott fixing the problem. Next Competition at PFL 10th September. **Safe Flying to everyone** Andrew McEntyre CD

Final Results

PFL 18th June 2016

Held: 18/06/2016

Competitor	Flight 1	Flight 2	Flight 3	Flight 4	Flight 5	Total
