

## Pattern Report round 3 held at LMAC June 17<sup>th</sup> 2017

A late start last Saturday due to the heavy fog as you can see in the photo, we had the pilot briefing 9.45 And started with two rounds of Sportsman. Tony Sheppard was first up ready to fly as it looks like it had started to clear sufficiently to get underway. After one circuit Tony made the call

to land as the fog was still far too low to continue. We were able to get underway some 15 minutes later, but still we had a short break later in the morning because low fog rolled back in for a short time. All things considered it turned out a good day for flying but the cold breeze from the north did bring out the heavy gear. Thirteen pilots braved the cold and fog for our very First Pattern Competition at LMAC for many years, I was very pleased with the club layout as many of us made comment the good job the club had done with the relocation of the clubhouse and field. A very strong continece from RFAM with Will Deal doing his usual excellent job on the camera and keeping the guy's moving.

Great team from PFL the 3 Expert flyers and David Cook in Sportsman LMAC duo Kevin and Terry in Advanced also Stephen Barrow from NWAM. During the morning a wind gust dislodged David Cook's model from it's stand breaking the aileron horn which meant the spare model was required. Bad luck David but still a good finish in 4<sup>th</sup> place. I was up to my old tricks doing some freestyle in the second round due to a lack of practice. I will need to improve by next round at RFAM as we now have 5 in Advanced class, congratulations to Michael Rutledge and Peter Allen picking up their promotion to Advanced class.

Tony Sheppard arrived with the very nice new model Fantasista looks great Tony, with a new model it wont be long before you are also moving up.

Early morning overseer William hard at it (Great Job Will)

Stephen Barrow will be looking forward to the next event also hoping to get the extra promotional point to also move up to Advanced. I think David Cook will not be far behind, which means we are inviting new flyers to join the Pattern group. We look forward to hearing from new interested pilots to come and join in and start flying in the Sportsman class group. The two LMAC Advanced boy's battled it out between themselves for first and second with Kevin Hay getting the job done. I was happy to settle for last or third if you like it sounds better but I need to improve with so many ace pilots coming thru. We had an interesting close result in the three guys' from PFL in the Expert Class, Steve Reece followed his win from last

comp to take home top spot again this time. Both Steve Cochrane and Ben Goode I would have thought that they would be keen to get back on top but it looks like the new venue was a challenge for them both may be. This first comp at LMAC has been a great success and it's thanks to all that attended and assisted with the event. Our special thanks go to Terry Pearson for the field layout and Kevin Hay and the LMAC committee in getting the comp to go ahead, also the team from LMAC with the canteen what an excellent lunch thanks very much to everyone. I am looking forward to the next comp at LMAC most likely next year sometime. It was very nice to have a number of visitors we haven't seen for some time Dave Jacobs and Kevin Swiggs and many others enjoying the flying. Thanks to Scott Kay and Tina Reece for the keeping the scores up to date thanks very much guys. The next comp will be Saturday August 12<sup>th</sup> down south at RFAM Midlands's Hwy Mangalore and the back up date for this event is Saturday August 26<sup>th</sup>. Cheers till next time Andrew....
